

THE PROBLEM

Your business
is *bleeding*
revenue.

1 62% of Calls Go Unanswered

More than half of all calls to small businesses reach no one. Every single one is a prospect who just called your competitor instead.

2 You're Responding Too Late

The average business takes 47 hours to follow up on a lead. Your customer made their decision in 4. The window closes fast.

3 Manual Work Is Killing You

Hours every week logging calls, chasing leads, updating spreadsheets. That's paid time producing zero revenue — and it compounds every month.
